Re: Jason Wang

To whom it may concern:

I have had the privilege of knowing Jason for the past few months. Jason is an integral and active part of our community and quick to help out with projects that come up. He is an intuitive thinker who is able to find solutions to issues as they arise. In a former career, I was the VP technology of a small cap wireless technology firm up in Toronto. We employed programmers in Toronto and other countries. One of my challenges challenge was the ability to communicate the consumer interface requirements to access the technology we developed. In my conversations with Jason I realize that his knowledge of various programming language, he would have been a valuable asset on our team.

Personally, Jason perseveres to find solutions and is a person who can lead but also work in the background with the team. He is one of many Conestoga international students who attend our church and I am confident in recommending any of them, especially Jason, to work in your firm.

Sincerely yours,

Darrell Clarke
Pastor, Doon PC
